FACT SHEET AVAILABLE FOR THE GUNSITE 012 OPERABLE UNIT AT THE SAVANNAH RIVER SITE

The United States Department of Energy (DOE), the United States Environmental Protection Agency – Region 4, and South Carolina Department of Health and Environmental Control announce the availability of a Fact Sheet for the Gunsite 012 Operable Unit. The Record of Decision was issued to the public on June 27, 2011. The selected final remedy is Land Use Controls. This final remedy will achieve the remedial goals for the residual hazardous substances that remain at the operable unit that could pose an unacceptable risk to future residential receptors.

Land Use Controls will be implemented through the Savannah River Site's Site Use Program, which provides access controls for on-site workers, and through site access controls against trespassing. Warning signs will be placed at strategic locations at Gunsite 012 to identify the operable unit. If the property is ever transferred to nonfederal ownership, the deed shall include restrictions precluding residential use of the property.

Copies of the Gunsite 012 Operable Unit Fact Sheet are available in the Administrative Record. The Administrative Record is available in the information repositories listed below:

- DOE Public Reading Room at the Gregg-Graniteville Library at the University of South Carolina (USC) Aiken campus in Aiken, SC; and
- Thomas Cooper Library Government Documents Department at USC in Columbia, SC.

Hard copies of the Gunsite 012 Operable Unit Fact Sheet are available at the following locations:

- Reese Library Government Information Section at Augusta State University in Augusta, GA; and
- Asa H. Gordon Library at Savannah State University in Savannah, GA.
